

To strengthen our team, we are seeking
to fill the following position
with immediate start

Mechatronics Engineer

(part-time & full-time)

Saarbrücken site

MEDTRON AG is an internationally operating medical technology company. MEDTRON AG has established itself on the market as one of the leading European manufacturers of state-of-the-art contrast media injectors and consumables. Several thousand doctors, hospitals and diagnostic facilities worldwide rely on the contrast media injectors from MEDTRON that are made in Germany.

Your tasks:

- > Assembly of complex medical systems
- > Assembly of mechanical, electrical and electronic components
- > Execution and documentation of test activities that are relevant to quality and safety
- > Support for the integration and further development of internal processes

Your skills and experience:

- > Completed and recognised training in the field of electrics, mechatronics, or a related field
- > Good fine motor skills and manual dexterity
- > Structured and conscientious way of working
- > Reliability, aptitude for teamwork and high self-motivation

What we offer:

We offer you a permanent employment contract with attractive benefits, including an annual leave allowance and Christmas bonus, an excellent working atmosphere with free drinks, weekly deliveries of fresh fruit and the option of leasing a bike through Jobrad.

If your profile matches the outlined tasks and you are interested in working for a rapidly expanding international company, we look forward to receiving your application with an indication of your earliest possible availability. Please send this to our HR department by e-mail. Please do not hesitate to contact our team if you require any further information.
